DIRECTIONS FOR USE

SITUATION	PEST	RATE	CRITICAL COMMENTS
Apply where pests occur, eg, food processing, factories, stores, ships, laundries, restaurants, boiler houses, hotels and motels.	Rats and mice	100mL per 900mL water	Stir well to ensure mixing. BAITING STRATEGY: Eliminate as far as practicable, all alternative drink sources. Place approximately 150mL of prepared bait solution in non-corrosive containers in sheltered position near rodent entry points. Inspect daily. If taken quickly, increase number of baits. Continue observation and replenishment until no more bait is taken. Baiting for at least 2 weeks is necessary to reduce rat/mouse numbers.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

The use of this product for the control of protected native rodents requires permission from wildlife authorities.
